PROFESSIONAL SUMMARY

Backend-focused software engineer with hands-on experience in **Node.js, Python, AWS Lambda, REST APIs and large-scale data systems**. Strong background in integrating third-party systems (**Odoo, Razorpay**), and handling high-volume datasets. Experienced across **SaaS, E-commerce, Event Tech and Data Analytics** with strong ownership from MVP design to production deployment.

SKILLS

Languages: JavaScript, Python, Java

Libraries & Frameworks: React, TypeScript, Tailwind CSS, Django

Backend Technologies: Node.js, JDBC, Apache Commons, JavaMail API

Databases: MySQL, MongoDB

Tools & Platforms: Git, GitHub, Postman, Razorpay, Odoo ERP, AWS Services

Soft Skills: Hardworking, Passionate, Problem-Solving

WORK EXPERIENCE

BSP Technology Pvt. Ltd.

Full Stack Developer (Full-Time) | March 2025 – Present

- Developed and implemented **MVP architecture** for an **E-commerce SaaS platform**, which includes modules for authentication, product management, orders, cart, checkout and admin dashboard.
- Designed **frontend from scratch using TypeScript** and performed backend integration for Cart, Checkout and Payment flows.
- Managed **10,000+ products** with unique **customer-centric discount logic**, ensuring accurate and scalable pricing.
- Designed a gateway to integrate **Odoo ERP** that ensures effective fetching of pricing, GST, HSN codes, stock, lead days and discount data.
- Implemented a **Python AWS Lambda** that consolidates multiple functions into a single endpoint via optimizing POST/GET communication with Odoo.
- Integrated **Razorpay** payment gateway using Node.js for **secure end-to-end transactions**.
- Enhanced **Hotel Booking platform** by integrating third-party APIs and managing **1.5M+ hotel records** using Lambda functions.
- Played a vital role in the team by developing an **Image Reference Automation module** that bulk-generates images using predefined layouts and Excel-driven text replacement.

Kanbir Solutions Pvt. Ltd

Data Analyst Intern (Full-Time) | January 2025 – March 2025

- Analyzed multi-million-pound datasets for multinational companies using **Python**.
- Performed large-scale data cleaning, transformation, and analysis across multiple scattered databases.
- Designed **Power BI dashboards** and generated reports for visibility to management for accurate decision-making.

BSP Technology Pvt. Ltd

Software Development Intern (Full-Time) | July 2024 – December 2024

- Developed and integrated **REST APIs** to enhance backend functionality and built robust server-side applications using **Node.js**, significantly contributing to the project's backend architecture.
- Reconstructed backend of an existing project to meet client requirements within a **shorter timeline**, optimizing system performance and reliability.
- Developed and integrated APIs in a **ticketing platform**, implemented a solution to export data to **M.S.Excel**, enhancing **data accessibility** and **backup**.

EDUCATION

BE in Computer Engineering | LDRP Institute of Technology and Research, Gandhinagar
2021– 2025 | CPI: 8.31
